New Statement Service

Dear Member,

After a period of intense preparatory work with the aim to re-establish access to "Statements" through the "miKep" platform, we herewith announce that the system is again operational.

We want to inform you that due to the "lockdown" we have incurred an administrative delay of up to 6 weeks. This will have as a potential consequence that account balances pertaining to the months of April and May 2021 are not (completely) reflective of your

account. We are committed to have this situation completely addressed for your June 2021 statement..

We want to offer our sincerest apology for any inconvenience you might have experienced due to not having on-line access to your account statements . At the same time we want to avail ourselves of the opportunity to express our gratitude for your understanding and patience to allow us to address this issue.

We invite you to access your account statements through :

<https://mi.kep.cw/>

Our next endeavor is to re-establish access to the history of the account statements on-line

Please be attentive to an announcement to that effect in the coming weeks.

Sincerely,

KEP Management Team.
